

*Remember TOLFA  
when making your will  
and your lasting legacy  
will help save lives*

TOLFA is an animal hospital and shelter based in rural Rajasthan, India. By remembering us in your will you'll be helping the abandoned street animals of India, as well as the people they live alongside.

We work to eradicate rabies in India; humanely control the street dog population; provide rescue and care to thousands of animals every year; as well as provide free veterinary care to the rural poor. PLEASE support our work and help us to continue saving lives. Every day.

**For more information please email us at
